RAKESH SATTAKARI

Web Penetration Tester And Developer

"I am a skilled web penetration tester and web developer with expertise in identifying and fixing security vulnerabilities in websites. I have a strong background in web development, creating and maintaining websites with a focus on functionality and user experience. I can perform conducting thorough security assessments, performing penetration testing, and implementing effective security measures. With my combined skills in web development and penetration testing, I bring a unique perspective to ensure the security and integrity of web applications.

About Me

Computer science Engineering Student

I am passionate about staying up-to-date with the latest web technologies and security trends to provide optimal solutions. Let's connect and discuss how I can contribute to your team!"
